Letter No 5966 dated 30 9 42 from the Chief Engineer of Mysore -

Re Forming a Park at Chennapatna

It is reported that the formation of the above Park was taken up during 1941 as per orders of the previous Dewan and at the request of the Amildar, Chennapatna when the estimate for Rs 1185/- for the work was forwarded to the Dy Commissioner, Bangalore Dist for obtaining the Countersignature of the Municipal President and allotment of funds the Dy Commissioner is stated to have informed the Exe Engineer that the formation of the Park may be dropped as per orders of the Dewan

2 Meanwhile the Exe Engineer incurred a liability to the extent of Rs 278-8-0 for putting up railings, gate pillars etc which form part of the main estimate of Rs 1185/- referred to above The Chennapatna Municipality have stated that as the work was executed by Govt, it is not a proper charge against the Municipality

3 The Ch Engineer, requests in the circumstances, orders of Govt to debit the cost to the Chennapatna Municipality So that the amount outstanding under Objection Book

Advances may be got cleared

4 It seems irregular to have incurred liability on the work, without a sanctioned estimate and allotment of funds either from Govt funds or Municipal funds Even if the work was urgent, permission of the Dy Commissioner should have been obtained before incurring any liability The Exe Engineer is seen to have acted upon the authority of the Amildar, as president of the Municipality and even before the instructions were conformed

5 Since the Municipality have pleaded inability to bear the cost, and as there is no provision for the work in the Rev. budget, and in view of the fact that the formation of the Park was ordered to be dropped, it ~~seems better to do so~~ is for consideration whether personal responsibility of the Exe Engineer has to be fixed and the cost recovered

Govt 8/10 1) the fundamental rules regarding incurring of liability on works on anticipation of sanction to estimates and allotment of funds have been infringed The work being one pertaining to the Local Body rules should have been

observed all the more strictly

¶ The work was taken up by the Govt at the instance of the American Presidency Town Municipality Chennapatna The cost should legitimately be borne by the Municipality The Law Secretary may be requested to make some necessary instructions in the matter

Dad 3/10/42

¶ The American Presidency Chennapatna has clearly to take responsibility in the matter as he has asked the Ex Engr in writing to push on with the work vide his letter No D/C 439/39-40 of 8/1/1941 At that time it was decided to debit the cost to the Town Improvement Grant Later on the D/C seems to have decided against it & the matter was dropped

¶ But now I think it is too late to repudiate the responsibility for part of the work executed, costing about Rs 278-80 I think this may be met from the current years grant to the Municipality under Town Improvements

under which the work was ordered to be taken up & executed basically it is for consideration of the Govt whether the summary sanction of the improvement grants for the current year should be accorded the work was done at a time when the Chennapatna Taluk was under subversion and if the Govt is now asked to start the bill it will certainly demur Hence the course suggested by the D C in para 9 supra may be adopted
